

Information sheet for

3rd Workshop on Diagnostics of Immunodeficiencies

22 - 24 June 2015 in Freiburg/Kirchzarten (Germany)

We are delighted to announce the “3rd Workshop on Diagnostics of Immunodeficiencies”. It is our great pleasure that **Kimberly Gilmour** (Great Ormond Street Hospital London, UK), **Mirjam van der Burg** (Erasmus University Rotterdam, Netherlands) and **Taco Kuijpers** (Academic Medical Center of the University of Amsterdam, Netherlands) will present beside our local speakers **Bodo Grimbacher**, **Philipp Henneke**, **Stephan Ehl** and **Klaus Warnatz** at this international meeting.

The workshop will be a **state of the art diagnostic evaluation** of T cell disorders, antibody deficiencies and disorders of the innate immune system in an interactive setting. We invite clinicians and scientists who are responsible for diagnostic testing in their institute and already have some experience in laboratory work-up of immunodeficiencies in particular to join this workshop.

To be able to offer optimal conditions for an interactive workshop, including case discussions there are only limited number places available. Therefore you need to apply by filling the **application form**, sending your **Curriculum Vitae** including a list of publications and/or meeting presentations and a **personalized letter of support** from your Head of Department or similar. The application form should show your previous involvement in the field of diagnostics of PID and your motivation to apply for this workshop.

As we would like to give young scientists and physicians the opportunity to take part, all costs (except your traveling costs) are included in the registration fee. In order to allow for optimal interaction we can accept only 32 participants. There is the option to choose between **single (150€ registration fee)** and **double room occupancy (100€ registration fee)**. Due to room restriction we appreciate if we could find **at least** 12 participants who are willing to choose the option with double room occupancy. Please indicate if you have a specific person you would like to share the room with. The registration fee has to be paid within two weeks after information about acceptance; otherwise we will offer your place to the next person.

Please make sure that you are able to participate in all sessions (Monday 9:00 AM – Wednesday 12:00 PM), before application. The workshop language is English. The workshop is endorsed by ESID. CME Points are requested.

Please forward your **application form**, **letter of support** **and** your **CV** before **January 31th 2015** to mirzokhid.rakhmanov@uniklinik-freiburg.de or ilka.fuchs@uniklinik-freiburg.de or by fax to +49-761/270-77600.

Decisions will be made within the first 2 weeks of February 2015 and we will inform you by **February 15th 2015**, if you have been accepted. In advance of the workshop all confirmed participants will be asked to send one case of PID (or suspected PID) that is educational from a diagnostic point of view (max. 3 powerpoint slides) for interactive case discussions.
